

Please do not allow the media to be solely controlled by Big Corporation. Our founding fathers declared the right of a free media to be the corner stone of democracy. The media is a servant to the public not the master of public opinion. A consolidation would lead to less competition and mass commercialism. This needs to be regulated. As it is now the media is not even reporting on these upcoming rule changes, they are trying to sweep this under the rug. What will happen when they are left to answer to no one?
